

## REACH/PFAS-STATEMENT

---

**Product:**                    **Corrugated board and corrugated board boxes.**  
**Solid Board and solid board boxes**

**Produced by:**            **Glomma Papp A/S**

Corrugated- and solid board are composed by a variety of paper types designed to satisfy functional demands for packaging. For some of these papers recycled fibers are used as raw material.

### REACH

According to REACH regulation (EC 1907/2006), article 33 we will provide information to our customers if products containing Substances of Very High Concern (SVHC) is over a limit of 0.1% (w/w).

Glomma Papp has no substance at REACH Candidate List and no Substances of Very High Concern (SVHC) over a limit of 0.1% (w/w).

### PFAS

1. Papers most likely to be treated with PFAS will normally not be a part of the OCC raw material used for solid- and corrugated base papers.
2. Our suppliers confirm that they do not intentionally add PFAS during the manufacturing process.
3. Glomma Papp A/S do not use PFAS in the manufacturing of solid- and corrugated board or solid- and corrugated board boxes.

It can therefore be stated, with a reasonable degree of certainty that PFAS are not present in the product, except for ubiquitous traces which may be present in the environment.
